- What I learned during the Web fundamentals training

-
- Adjournment

Problem?

+1000 Tunisian artisans can't sell their works online and have endless problems deliver nationally and internationally.

Solution

The Craft Community?

A website assembling the products of small crafters
and artists in Tunisia

Our website display the artists' works and sell it nationally and internationally, we take care of the delivery and safety of products from the seller to the buyer.

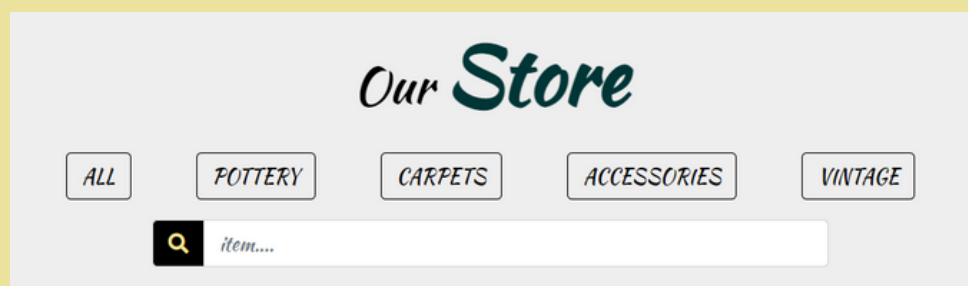

Programming Languages Used

HTML, CSS, JS and Bootstrap

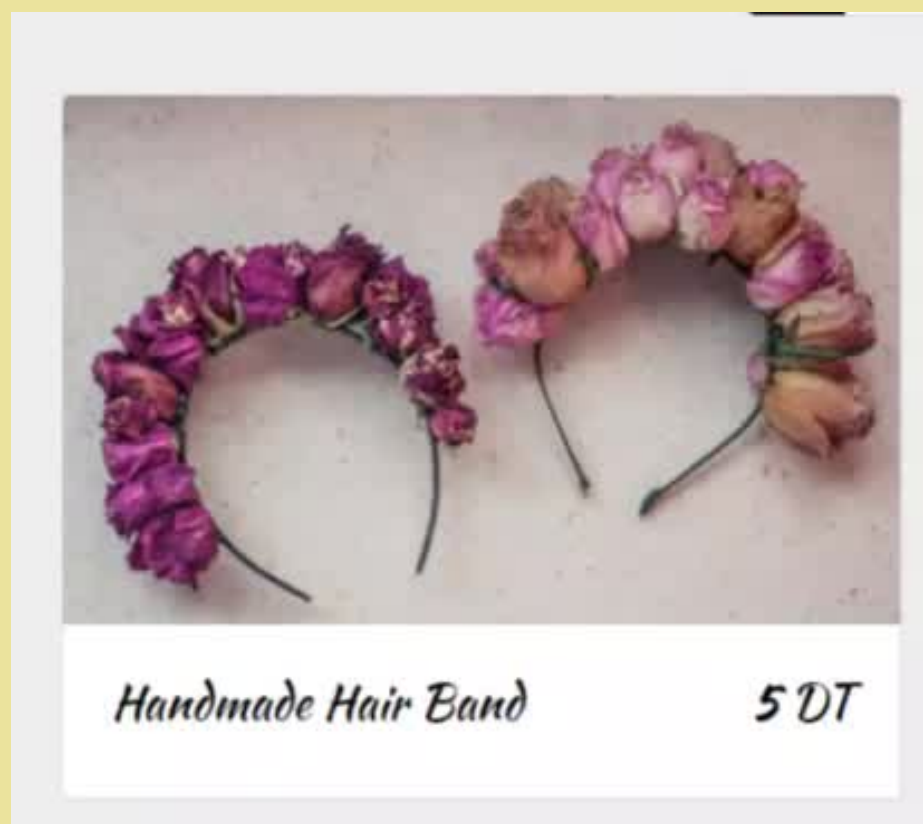

Our website is made with love and care.

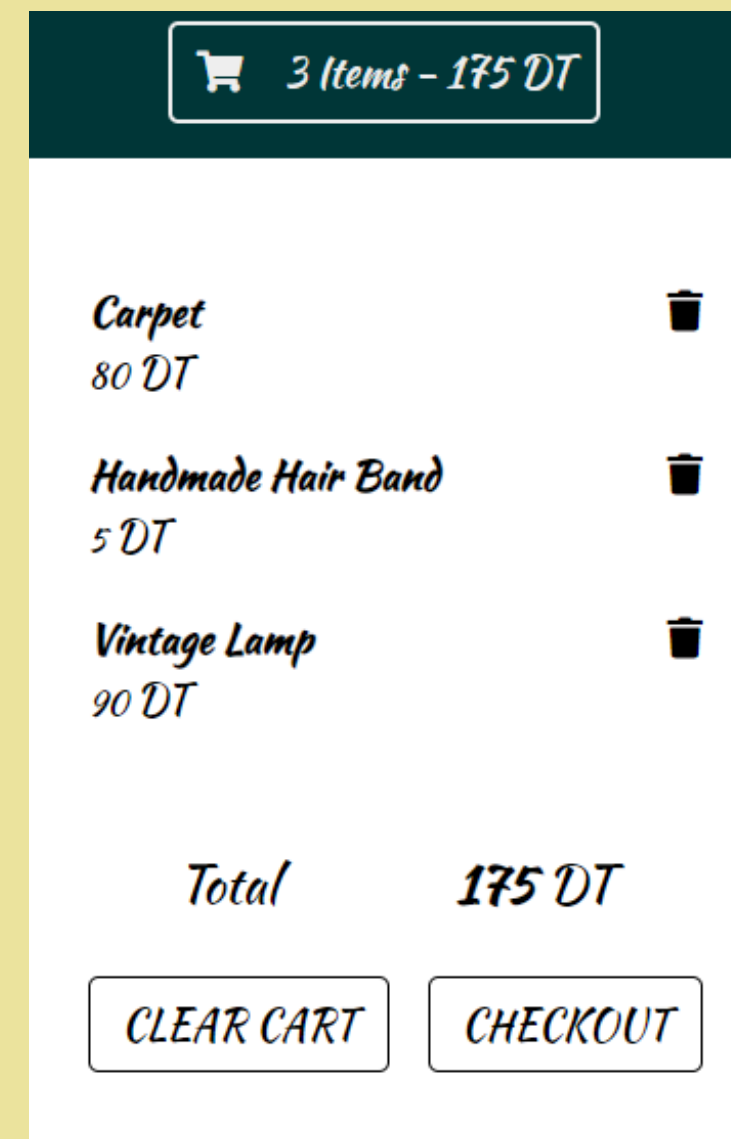

Website Features

.....
Online Store

.....
Easy way to shop

.....
Shopping Cart

Website Demo

What I learned during the Web fundamentals training

Quality code

Optimize my Github profile

Take care of my LinkedIn profile

Making new friends

Showing up every week

More Curiosity, Creativity, Communication

Time Management between my life & GMC

Stress management

Organise my code
